## Technical Note: Custom NTP server configuration

**Products** 

FortiGate v5.0

FortiGate v5.2

FortiGate v5.4

FortiGate v5.6

Description

This article provides an example of the configuration of a custom NTP server via CLI.

Solution

config system ntp

A custom NTP server can be configured via CLI as follows:

set ntpsync enable
set type custom -----> Change type first
set syncinterval 1
config ntpserver
edit 1
set server "1.1.1.1" ----> NTP server IP
set ntpv3 disable
next
end
set source-ip 0.0.0.0
set server-mode disable

Further information can be found in the appropriate version of the "CLI Reference guide" in the Fortinet Document Library.
