Article Number: 218 | Rating: Unrated | Last Updated: Fri, Sep 28, 2018 at 11:04 AM

This article is to show you how to upgrade your firmware on a zyxel router.

Follow these steps one by one and you should successfully upgrade the firmware.

1. Open up the web browser.

2. Go to 192.168.1.1

3. Log in with "admin" as the username and enter the password given on the IC-Connect sheet in the routers box.

4. Now we need to download the firmware. Go to <ftp://ftp.zyxel.fr/> (<ftp://ftp.zyxel.fr/>) and select ftp download, scroll down to find your specific model number, click firmware and finally double click on the **ZIP** file which has the newest date.
