Last Number Redial

Description

This feature allows users to redial the last number that they previously dialled. Users can only redial calls where the call type is allowed in the Outgoing Calling Plan.

Function

Used by a User to quickly dial/return a previous call.

Configuration/Operation

No configuration is required to turn this feature on as it is on by default. A User can use the ‘Redial’ button on their appropriate handset to redial a previous call or they can dial the following feature access code:

*66 (default)
