

# Last Number Redial

Article Number: 269 | Rating: Unrated | Last Updated: Thu, Feb 11, 2021 at 5:45 PM

## Last Number Redial

### Description

This feature allows users to redial the last number that they previously dialled. Users can only redial calls where the call type is allowed in the Outgoing Calling Plan.

### Function

Used by a User to quickly dial/return a previous call.

### Configuration/Operation

No configuration is required to turn this feature on as it is on by default. A User can use the 'Redial' button on their appropriate handset to redial a previous call or they can dial the following feature access code:

\*66 (default)
