

Dashboard

Quick Statistics Tiles

By default, the Dashboard is displayed when you log in to the Business Portal. There is a visual quick stats section that will display the following:

- Voicemail Notifications – Unread and Read
- Missed Calls – Number, Date and Time
- Dialled Calls – Number, Date and Time
- Received Calls – Number, Date and Time
- Recorded Calls – Last 10 recorded calls, calls in progress (only if enabled), click through to Voice recordings
- Voicemails – Received voicemails and ability to playback
- Call Logs – user level call data and analysis
- Quick Feature Management – top features

The screenshot shows the Web Portal Dashboard with the following sections:

- Quick Statistics Tiles:**
 - Voicemail:** Unread: 0, Read: 0
 - Missed Calls:** A table showing 5 missed calls from 02079930296, 02079930295, and 0190, with times from 10:46 to 13:31.
 - Dialed Calls:** A table showing 5 dialed calls from 02079930296, 02079930295, 0190, 0327, and 02079930296, with times from 10:49 to 14:46.
 - Received Calls:** A table showing 5 received calls from 02079930296, 02079930295, 0324, 0327, and 02079930296, with times from 08:41 to 14:24.
- Call Logs:** A search interface with filters for User, All Traffic, Outbound, Answered, and a date range from 2014/04/28 00:00 to 2014/04/28 23:59.
- Quick Feature Management:** A grid of features with on/off switches and configuration buttons:
 - Call Forwarding Always: On, Phone No: 02079930296, Save button.
 - Remote Office: Off, Phone No: 02079930295, Save button.
 - Do Not Disturb: Off, Save button.
 - CLI Display: On, Save button.
 - Sim Ring: Off, Configure button.
 - Call Director: Configure button.
