

# Additional Line

## Description

Additional Line is a 'User Type' that is configured when a new User is created.

## Function

An additional line can be created to give a device, IP handset etc. a 2nd, 3rd, 4th.... call appearance, on spare line keys if supported, for multiple DECT handsets off a DECT base station or to utilise a 2nd line on an ATA.

## Configuration/Operation

To provide a User with an additional line in the Business Portal navigate to:

- Employees>Add Employee

- Click Save & Activate

- Select Site Name

- Select Additional Line

**Primary Number**

Use Public Number

Area Code

Number

\* Extension

<input type="checkbox"/> BasicUser <input type="button" value="On"/>	<input type="checkbox"/> PremiumMobilityUser <input type="button" value="Off"/>	<input type="checkbox"/> PremiumUser <input type="button" value="Off"/>	<input type="checkbox"/> SIPTrunkMobilityUser <input type="button" value="Off"/>
<input type="checkbox"/> SIPTrunkUser <input type="button" value="Off"/>	<input type="checkbox"/> StandardUser <input type="button" value="Off"/>		

- Select Primary Number and Feature Package

**Optional Add-On Feature Packages**

<input type="checkbox"/> Reception Console <input type="button" value="Off"/>	<input type="checkbox"/> Softphone <input type="button" value="Off"/>	<input type="checkbox"/> Toolbar <input type="button" value="Off"/>	<input type="checkbox"/> Voicemail inc Call Notify <input type="button" value="Off"/>
--	--	--	--

**Device Selection**

Device Selection  Existing Device  New Device

Device ID

Device Type

\* MAC Address

**Authentication**

Set Authentication

- Select Optional Add-On Feature Package (if required)
- Select Device
- New Device:- If you wish to create a new device for this service
- Define a new device ID
- Select the device type from the dropdown box
- Enter the device MAC address
- Existing Device
- Select the existing device in the Device ID dropdown box.
- Click Activate

The additional line will be added to device. If the additional line is on an existing device the device will reboot and the additional line will appear under the first spare line key.
