## Calling Line ID Delivery-External Calling Line ID Delivery

## Description

Allows the user to view the incoming Caller ID information for a call coming from outside the customer's organisation.

## Function

To control whether the user is presented with the Calling Line Information, Number and Name, where available, for incoming calls that have originated outside the customer's organisation.

For SIPT users this can be used for inbound calls delivered from the PSTN although the PBX could override it. The feature is dependent on the PBX being used and whether or not it can be configured to support the feature.

## Configuration/Function

In the Business Portal, navigate to:

- Employees > Features > Call Control
- Scroll down to External Calling Line ID Delivery

Employee	Features		Company: Sales Demo Employee: 0331.sales	
Selection	List Grid	Filter	r	
Add Employee	> Mobility			
Ø	✓ Call Control			
Profile	Alternate Numbers	✗ Configure		
Service Settings	Anonymous Call Rejection	Ott		
<b>Dashboard</b>	Calling Line ID Blocking Override	Off		
Ł				
Import Employees	External Calling Line ID Delivery	On		
	Internal Calling Line ID Delivery	On		
	Call Notify (off)	✗ Configure		

• Move the Slider Switch to toggle the setting On or Off.
