

Sequential Ring

Description

Ring multiple phones sequentially when calls are received

Function

Sequential Ring allows you to sequentially ring up to 5 locations in addition to the base location for a specified number of rings.

The 5 locations can be either a phone number or a SIP-URI. The feature applies to calls matching your pre-defined criteria. Use this service to ring calls from your manager, a family member, or an important customer on your mobile phone, alternate business phone, or home phone.

The criteria for each Sequential Ring entry can be a list of up to 12 phone numbers or digit patterns, a specified time schedule, and a specified holiday schedule. All criteria for an entry must be satisfied for the call to enter Sequential Ring (phone number and day of week and time of day). If the criteria do not match, the call continues as if this service was not turned on.

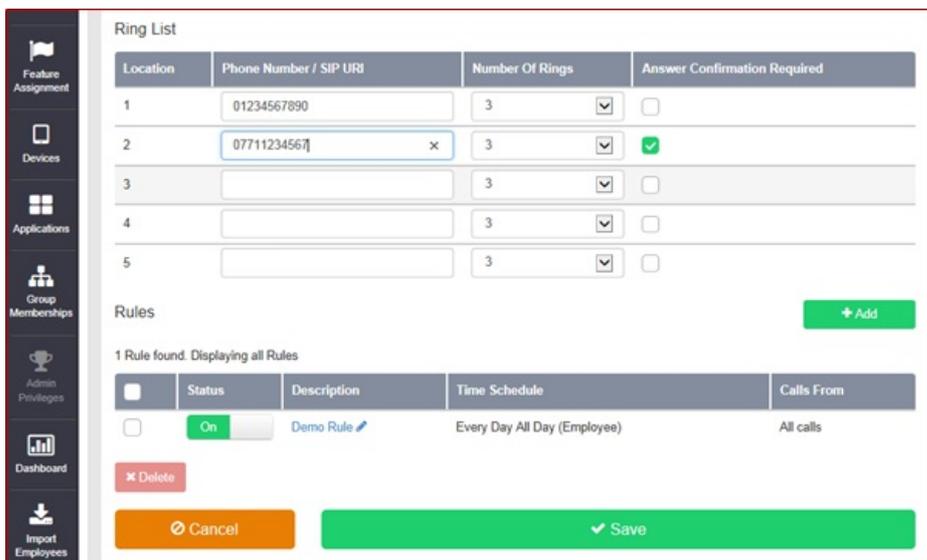

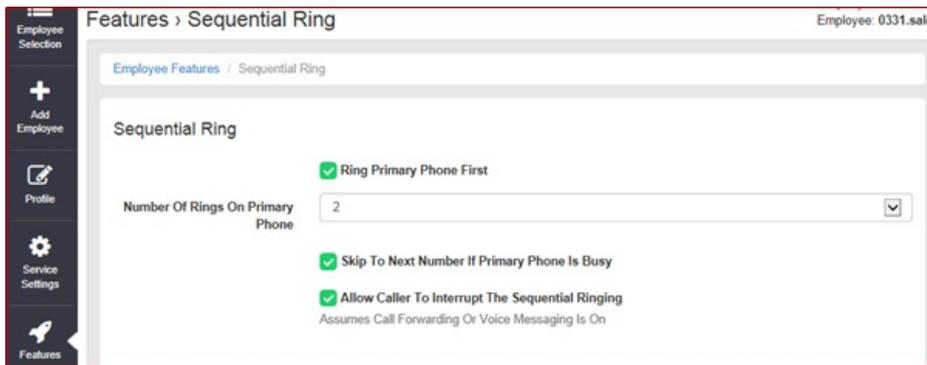

Configuration/Operation

In the Business Portal navigate to:

- Employee > Features > Mobility > Sequential Ring

- Select Configure

- Setup the sequential list of phone numbers
- The Number of rings at each location
- Select is Answer Confirmation is required.
 - Refer to the Answer Confirmation feature section in this guide.
- Add a rule or edit an existing rule
 - Sequential Ring cannot be activated without a rule being defined. It could be as simple as All Calls, All Day Every Day.

The screenshot shows the 'Edit Rule' dialog box. At the top, there is a 'Description' field containing 'Demo Rule' and a 'Time Schedule' dropdown menu set to 'Every Day All Day (Employee)'. Below this is a section titled 'Phone Numbers'. Under 'Accept Calls From', the 'Only These Phone Numbers' radio button is selected. There are also checkboxes for 'Private Numbers' and 'Unknown Numbers'. In the 'Specific Numbers' section, the 'Maximum Allowed' is set to 12. An 'Add Phone Number' input field contains '01456789012' with a green '+' button to its right. Below the input field is a table with a header 'Phone Number' and one row containing '01345678902'. A red 'Delete' button is located at the bottom left of the table. At the bottom of the dialog, there are 'Cancel' and 'Save' buttons.

- Every Rule must have a unique Description
- Select a Time schedule from the dropdown menu.
 - Note:- Time schedules have to be pre-configured (Please refer to the Site Features Guide for more details)
- If Rule is to cover 'All Calls' select the 'All Phone Numbers' radio button and click 'Save'
- If Rule is for specific phone numbers select the 'Only These Phone Numbers' and add the phone numbers (max of 12)

This screenshot shows the 'Edit Rule' dialog box with 'All Phone Numbers' selected under 'Accept Calls From'. The 'Specific Numbers' section shows 'Maximum Allowed' as 12 and an empty 'Add Phone Number' input field with a green '+' button. Below the input field is a table with a header 'Phone Number' and a red message 'No Numbers Have Been Added Yet' at the bottom. The 'Cancel' and 'Save' buttons are at the bottom.

- To add a phone number type the number into the box and click the '+' button

A close-up view of the 'Add Phone Number' input field. The text '02345678901' is entered in the field. To the right of the field is a green square button with a white '+' sign, which is highlighted with a red box.

- To delete a number select the right hand tick box and click delete
- To delete all numbers select the right hand tick box in the header bar and click delete.
- When you have completed the configuration Click 'Save'
